Hi Robert,

Thanks for posting here.

For your description, I understand that you want to know things should be noticed when apply SBS SP1. If I am off base, please don't hesitate to let me know.

Suggestion 1:

Before we go further analyze, I suggest you follow the below white paper to backup your SBS server first. So your business and data could be kept safe no matter how the troubleshooting process goes.

Backing Up and Restoring Windows Small Business Server 2003

<http://www.microsoft.com/downloads/details.aspx?FamilyIDH7736f8-f6f5-436d-a82d-0c8d66e2a634&DisplayLang=en>

Suggestion 2:

It is recommended you apply SBS sp1 follow installation guide provided by Microsoft and you will not encounter many issues.

You can refer to the following link to apply SBS SP1:

<http://www.smallbizserver.net/Default.aspx?PageContentID=62&tabid=236>

In the following website you can find many useful resources related to SBS SP1:

<http://www.smallbizserver.net/Default.aspx?PageContentID=53&tabid=236>

The website includes: What is SP1 for SBS 2003 and what you need to know | Standard install step-by-step | Premium install step-by-step | Things to do after the upgrade | Errors that can occur after the upgrade

Suggestion 3:

To prepare Windows Small Business Server to deploy Windows XP SP2 to client computers that are running Windows XP Professional, follow these steps on

your Windows Small Business Server–based computer:

Please refer to the following KB article:

884032 Update is available for the Windows Small Business Server 2003 Client

<http://support.microsoft.com/?id=884032>

Note: installing hotfix 884032 may fail with error about fax service, you can refer to follow steps to resolve:

Resolution:

=====

1. Uninstall Fax Service via SBS Setup using component Selection screen, set the Action to Uninstall for the Fax Service.

– May require you to Set the correct permissions on the Default Domain Controller User Right Assignments

– under Group policy – Computer Configuration / Windows Settings / Local Polycys / User Rights Assignments

2. Complete the wizard.

3. Rename the following keys and files to *.old:

HKEY_LOCAL_MACHINE\SOFTWARE\Microsoft\Fax

HKEY_LOCAL_MACHINE\SYSTEM\CurrentControlSet\Services\Fax

C:\Program Files\Microsoft Windows Small Business Server\fax

C:\Winnt\FaxSetup.log

4. Reboot the server

5. Reinstalled the fax service

In addition, you can search the following logs to check if there is any error:

1. For Windows Server 2003 SP1 installation failure: C:\Windows\svcpack.log.

2. For SharePoint Services SP1 installation:

%temp%\Ohotfix\OHotfix(0000x).log and OHotfix(0000x)_Msi.log.

3. For Exchange Server 2003 SP1 installation failure: C:\Exchange Server Setup Progress.log

4. For Windows XP SP2 for Client Deployment failure:

C:\Windows\KB891193.log.

5. For Windows Small Business Server 2003 SP1 failure:

a) C:\Windows\KB885918.log

b) C:\Program Files\Microsoft Integration\Windows Small Business Server 2003\Logs

RE: SBS 2003

Hope above information helps! If you have any further concern or question on the issue please feel free to let me know. we are always happy to be of assistance of you!

Have a nice day!

Best Regards,

Jenny Wu
Microsoft CSS Online Newsgroup Support

=====
This newsgroup only focuses on SBS technical issues. If you have issues regarding other Microsoft products, you'd better post in the corresponding newsgroups so that they can be resolved in an efficient and timely manner. You can locate the newsgroup here:
<http://www.microsoft.com/communities/newsgroups/en-us/default.aspx>

When opening a new thread via the web interface, we recommend you check the "Notify me of replies" box to receive e-mail notifications when there are any updates in your thread. When responding to posts via your newsreader, please "Reply to Group" so that others may learn and benefit from your issue.

Microsoft engineers can only focus on one issue per thread. Although we provide other information for your reference, we recommend you post different incidents in different threads to keep the thread clean. In doing so, it will ensure your issues are resolved in a timely manner.

For urgent issues, you may want to contact Microsoft CSS directly. Please check <http://support.microsoft.com> for regional support phone numbers.

Any input or comments in this thread are highly appreciated.
