Hello,

I using a SBS 2003 standard edition with SBS 2003 SP1, I have a fixed IP and No any ports blocked by ISP, and I used I already reinstall the system for many times. a broadband router with a DMZ and port forwarded with this server

When I use the SMTPDiag, it always show "failed to submit mail.... 10060"

So what Can I do?

Please Help!!!

Yhanks for your great!

Hang
