Hi Alan,

Thanks for your update!

Before you begin to update, please ensure you have backup the whole server successfully in case any disaster happened, you can restore back easily. For your convenience, I list the document link again:

Backing Up and Restoring Windows Small Business Server 2003
<http://www.microsoft.com/downloads/details.aspx?FamilyID=487736f8-f6f5-436d-a82d-0c8d66e2a634&displaylang=en>

Then, you can follow Dell guide to apply Windows 2003 SP1.

Note: Please download the Windows SP1 from Dell web site. Please view the following guide carefully and follow the guide:
Getting Started With Dell Update Packages
<http://support.dell.com/support/edocs/software/smdup/dup12/en/ugwinhtm/1intro.htm?c=us&l=en&cs=555&s=biz>

After you have applied Windows 2003 SP1, Please follow the following articles to reapply others service packs:

- **Windows SharePoint Services SP1
- **Exchange Server 2003 SP1
- **Outlook 2003 SP1 (applies to each client)
- **Windows XP SP2 (applies to each client)
- **Active Sync 3.8 (applies to each client)
- **SBS 2003 SP1

You can refer to the following link to apply SBS SP1:
<http://www.smallbizserver.net/Default.aspx?PageContentID=62&tabid=236>

In the following website you can find many useful resources related to SBS SP1:
<http://www.smallbizserver.net/Default.aspx?PageContentID=53&tabid=236>

The website includes: What is SP1 for SBS 2003 and what you need to know |

RE: Backup and Sharepoint

Standard install step-by-step | Premium install step-by-step | Things to do after the upgrade | Errors that can occur after the upgrade

Hope this helps. Please feel free to post back if you need further assistance. We are glad to help!

Have a nice day!

Best Regards,

Jenny Wu
Microsoft CSS Online Newsgroup Support

=====
This newsgroup only focuses on SBS technical issues. If you have issues regarding other Microsoft products, you'd better post in the corresponding newsgroups so that they can be resolved in an efficient and timely manner. You can locate the newsgroup here:

<http://www.microsoft.com/communities/newsgroups/en-us/default.aspx>

When opening a new thread via the web interface, we recommend you check the "Notify me of replies" box to receive e-mail notifications when there are any updates in your thread. When responding to posts via your newsreader, please "Reply to Group" so that others may learn and benefit from your issue.

Microsoft engineers can only focus on one issue per thread. Although we provide other information for your reference, we recommend you post different incidents in different threads to keep the thread clean. In doing so, it will ensure your issues are resolved in a timely manner.

For urgent issues, you may want to contact Microsoft CSS directly. Please check <http://support.microsoft.com> for regional support phone numbers.

Any input or comments in this thread are highly appreciated.
