-

HI PG,

>From your description, it seems a lot of template has the permission issue?
Can I assume that all the permission of this grey template encountered the same issue when you try to change the permission and the permission the security section is not correct as I referred to?

If so, I suggest you make sure that you logon the SBS server with Enterprise Admin, it seems to be the permission issue, if possible please make sure that you logon via Built-in Enterprise Admin to see if the problem can be cleared,

Thanks for your effort.

Best regards,

Charles Yang (MSFT)

Microsoft CSS Online Newsgroup Support

Get Secure! – www.microsoft.com/security

=====
This newsgroup only focuses on SBS technical issues. If you have issues regarding other Microsoft products, you'd better post in the corresponding newsgroups so that they can be resolved in an efficient and timely manner.

You can locate the newsgroup here:

<http://www.microsoft.com/communities/newsgroups/en-us/default.aspx>

When opening a new thread via the web interface, we recommend you check the "Notify me of replies" box to receive e-mail notifications when there are any updates in your thread. When responding to posts via your newsreader, please "Reply to Group" so that others may learn and benefit from your issue.

Re: SBS2003Premium Certification Authority from HELL!!!

Microsoft engineers can only focus on one issue per thread. Although we provide other information for your reference, we recommend you post different incidents in different threads to keep the thread clean. In doing so, it will ensure your issues are resolved in a timely manner.

For urgent issues, you may want to contact Microsoft CSS directly. Please check <http://support.microsoft.com> for regional support phone numbers.

Any input or comments in this thread are highly appreciated.

| Hi Charles,

| I went to DCOMCNFG and on the Launch permission it was empty, and I added

Re: SBS2003Premium Certification Authority from HELL!!!

Re: SBS2003Premium Certification Authority from HELL!!!

| Everyone with (Launch permission---Allow)
| and in the Access permission it is everyone (Access permission---Allow),
so
| I didn't have to change it.
| Could not find anything that referred to (Local Activation Remote
Activation)
| or (Local Access Remote Access) as you said. Only (Launch Permission) and
| (Access Permission).
|
| After applying the changes to DCOM I tried to request a certificate, and
the
| same error occurred. Duplicated a Template and still the same error. :(
| "No certificate templates could be found. You do not have permission to
| request a certificate from this CA, or an error occurred while accessing
the
| Active Directory."
|
| In response to your question, all the certificates templates, from the
| pictures I sent you, that are greyed out have permissions issues, and
don't
| let me add or change permissions for those certificates.
|
| :(
