Hello Gordon,

Thank you for posting back!

I am glad to hear that you have solved the issues.

I regret to say that due to the issues were complicated, and I understand that you could not always plug two NICs on SBS server to troubleshoot the issues. In order to save your time, we suggest that contact PSS to work more efficiency, since the issues were not suitable to handle in Newsgroup.

I am very sorry for any inconvenience brought up to you, and I greatly appreciated your understanding!

Best regards,

Brandy Nee

Microsoft CSS Online Newsgroup Support

=====  
This newsgroup only focuses on SBS technical issues. If you have issues regarding other Microsoft products, you'd better post in the corresponding newsgroups so that they can be resolved in an efficient and timely manner. You can locate the newsgroup here:  
<http://www.microsoft.com/communities/newsgroups/en-us/default.aspx>

When opening a new thread via the web interface, we recommend you check the "Notify me of replies" box to receive e-mail notifications when there are any updates in your thread. When responding to posts via your newsreader, please "Reply to Group" so that others may learn and benefit from your issue.

Microsoft engineers can only focus on one issue per thread. Although we provide other information for your reference, we recommend you post different incidents in different threads to keep the thread clean. In doing so, it will ensure your issues are resolved in a timely manner.

Re: Workstations log off

For urgent issues, you may want to contact Microsoft CSS directly. Please check <http://support.microsoft.com> for regional support phone numbers.

Any input or comments in this thread are highly appreciated.
