We are all using Os: XP pro

I have a couple of questions:

1) How can i monitor to see if these faxes are being sent over or jsut coming back?

In other words track the fax?

2)How can i attach or just send a word document over the fax wizard? I only saw that it sent out a cover page and nothing more.

3) What is the best way to import all my fax number i have 4880 number to fax to. It kind of a massive sale blitz during the thanksgivinglong weekend. Does SBS fax have a maximum amount of faxes per session?
