Hi Gordon,

Thank you for your kindly update. I am glad to hear that the information is of assistance to you.

As for your other (OWA and IE and WIN98) problem, I appreciate your time and testing, if you have any updates or need any further assistance on this issue, please feel free to let me know. I am glad to be of assistance. :-)

By the way, please note the partner managed newsgroups are staffed weekdays by Microsoft Support professionals. Our goal is to provide a one business day response to all posts.

For time critical issues (not business down), we encourage you to contact CSS directly for more immediate assistance:
International Support (non-US/Canada):
<http://support.microsoft.com/common/international.aspx>

US and Canada:
<http://support.microsoft.com/default.aspx?scid=fh:EN-US:OfferProPhone>

Best regards,

Nathan Liu (MSFT)

=====
This newsgroup only focuses on SBS technical issues. If you have issues regarding other Microsoft products, you'd better post in the corresponding newsgroups so that they can be resolved in an efficient and timely manner. You can locate the newsgroup here:
<http://www.microsoft.com/communities/newsgroups/en-us/default.aspx>

When opening a new thread via the web interface, we recommend you check the "Notify me of replies" box to receive e-mail notifications when there are any updates in your thread. When responding to posts via your newsreader,

RE: Attachment filter – SBS2003

please "Reply to Group" so that others may learn and benefit from your issue.

Microsoft engineers can only focus on one issue per thread. Although we provide other information for your reference, we recommend you post different incidents in different threads to keep the thread clean. In doing so, it will ensure your issues are resolved in a timely manner.

For urgent issues, you may want to contact Microsoft CSS directly. Please check <http://support.microsoft.com> for regional support phone numbers.

Any input or comments in this thread are highly appreciated.
