Hello Kevin,

Sorry for keeping you waiting!

I have read through the Filemon and Regmon, however, I cannot find any error information inside. Could you please rerun Filemon and Regmon applications again? Please see my following steps:

1. Download Filemon Application:

<http://www.sysinternals.com/ntw2k/source/filemon.shtml>

2. Reproduce the issue (i.e. Rerun Remote Access Wizard), before following error message appears, please start Filemon application.

" An error occurred while creating the Connection Manager configuration package file. For details, see C:\Program Files\Microsoft Windows Small Business Server\Support\rRASlog.txt, and then rerun the Remote Access Wizard. "

3. After the issue occurs, stop the filemon and email me the log.

4. Download the Regmon from the following web link:

<http://www.sysinternals.com/ntw2k/source/regmon.shtml>

6. Repeat step 2 and 3, email me Regmon log.

Thanks a lot for your time and co-operation, and I am looking forward to hearing from you!

Best regards,

Brandy Nee

Microsoft CSS Online Newsgroup Support

=====
This newsgroup only focuses on SBS technical issues. If you have issues regarding other Microsoft products, you'd better post in the corresponding newsgroups so that they can be resolved in an efficient and timely manner. You can locate the newsgroup here:

<http://www.microsoft.com/communities/newsgroups/en-us/default.aspx>

When opening a new thread via the web interface, we recommend you check the "Notify me of replies" box to receive e-mail notifications when there are any updates in your thread. When responding to posts via your newsreader, please "Reply to Group" so that others may learn and benefit from your issue.

Microsoft engineers can only focus on one issue per thread. Although we provide other information for your reference, we recommend you post different incidents in different threads to keep the thread clean. In doing so, it will ensure your issues are resolved in a timely manner.

For urgent issues, you may want to contact Microsoft CSS directly. Please check <http://support.microsoft.com> for regional support phone numbers.

Any input or comments in this thread are highly appreciated.
