Hi Sujith,

Thanks for the email.

Since this issue is rather complicated, to resolve it, we may need more deeper troubleshooting and collect more log, it is recommended that you contact CSS support, since there could have more interactive troubleshoot process with Microsoft Support professional and even have remote assistance. Due to support nature of public newsgroup, it is not convenient to be done here. Thanks for the understanding.

To obtain the phone numbers for specific technology request please take a look at the web site listed below.

<http://support.microsoft.com/default.aspx?scid=fh:EN-US:PHONENUMBERS>

If you are outside the US please see <http://support.microsoft.com> for regional support phone numbers.

Best regards,

Nathan Liu (MSFT)

=====
This newsgroup only focuses on SBS technical issues. If you have issues regarding other Microsoft products, you'd better post in the corresponding newsgroups so that they can be resolved in an efficient and timely manner.

You can locate the newsgroup here:

<http://www.microsoft.com/communities/newsgroups/en-us/default.aspx>

When opening a new thread via the web interface, we recommend you check the "Notify me of replies" box to receive e-mail notifications when there are any updates in your thread. When responding to posts via your newsreader, please "Reply to Group" so that others may learn and benefit from your issue.

Microsoft engineers can only focus on one issue per thread. Although we provide other information for your reference, we recommend you post

RE: Email problem,

RE: Email problem,

different incidents in different threads to keep the thread clean. In doing so, it will ensure your issues are resolved in a timely manner.

For urgent issues, you may want to contact Microsoft CSS directly. Please check <http://support.microsoft.com> for regional support phone numbers.

Any input or comments in this thread are highly appreciated.
