Hello I have a certrance travan drive. I installed SBS 2003 SP1 6 weeks ago and have not had a problem with backup up until two days ago.

I am receiving the following errors:

Backup Type: Copy

Backup started on 11/17/2005 at 4:13 PM.

The requested media failed to mount. The operation was aborted.

The operation was ended.

Backup completed on 11/17/2005 at 4:19 PM.

Directories: 184

Files: 2673

Bytes: 542,352,332

Time: 5 minutes and 31 seconds

The operation did not successfully complete.

=====
=====<END NTBACKUP LOG FILE>=====

NTBackup finished the backup with errors.

In the application event view I receive these messages:

Event Type: Error
Event Source: NTBackup
Event Category: None
Event ID: 8019
Date: 11/17/2005
Time: 4:19:09 PM
User: N/A
Computer: name
Description:

Backup failing out of no where. PLEASE HELP

End Operation: Warnings or errors were encountered.
Consult the backup report for more details.

as well
