Hi Jim,

Thanks for the kind update.

It is a good news, I'm glad to hear that things are working correctly for you now. I appreciate your time and shared the troubleshooting steps.

Additionally, I'm glad to provide the following information for you further reference:

Virtual Internet Information Services (IIS) Directories That Are Used by Outlook Web Access in Exchange Server 2003

<http://support.microsoft.com/default.aspx?scid=kb:en-us:821898>

Microsoft Windows Small Business Server 2003 Service Pack 1 (SP1)

<http://www.microsoft.com/downloads/details.aspx?FamilyId=B6F8A4C0-B707-4161-ADEB-44F1B756119F&displaylang=en>

Installation Instructions for Service Pack 1 for Windows Small Business Server 2003, Standard Edition

=====

This newsgroup only focuses on SBS technical issues. If you have issues regarding other Microsoft products, you'd better post in the corresponding newsgroups so that they can be resolved in an efficient and timely manner.

You can locate the newsgroup here:

<http://www.microsoft.com/communities/newsgroups/en-us/default.aspx>

When opening a new thread via the web interface, we recommend you check the "Notify me of replies" box to receive e-mail notifications when there are any updates in your thread. When responding to posts via your newsreader, please "Reply to Group" so that others may learn and benefit from your issue.

Microsoft engineers can only focus on one issue per thread. Although we provide other information for your reference, we recommend you post different incidents in different threads to keep the thread clean. In doing so, it will ensure your issues are resolved in a timely manner.

For urgent issues, you may want to contact Microsoft CSS directly. Please check <http://support.microsoft.com> for regional support phone numbers.

Any input or comments in this thread are highly appreciated.
