Hello Sam,

Thank you for posting back!

I am sorry for the delayed response due to weekend. Please understand that the newsgroups are staffed weekdays by Microsoft Support professionals to answer your systems and applications questions. Your understanding is greatly appreciated!

Actually, you can either do an in-place upgrade or do a migration. I am not sure what exact software running against SQL 2000. If it is a third party software, please understand that software is developed by the software vendor independent on Microsoft, and we are not sure how it is designed, so we cannot provide detail information to you. We suggest that contact the software vendor to make sure it works compatible with Windows Server 2003 or SBS 2003. Also please check if there are any things else needed to be done to the application before the upgrade or migration.

Hope this information helps!

Best regards,

Brandy Nee

=====
This newsgroup only focuses on SBS technical issues. If you have issues regarding other Microsoft products, you'd better post in the corresponding newsgroups so that they can be resolved in an efficient and timely manner. You can locate the newsgroup here:
<http://www.microsoft.com/communities/newsgroups/en-us/default.aspx>

When opening a new thread via the web interface, we recommend you check the "Notify me of replies" box to receive e-mail notifications when there are any updates in your thread. When responding to posts via your newsreader, please "Reply to Group" so that others may learn and benefit from your

Re: Upgrade to SBS 2003

issue.

Microsoft engineers can only focus on one issue per thread. Although we provide other information for your reference, we recommend you post different incidents in different threads to keep the thread clean. In doing so, it will ensure your issues are resolved in a timely manner.

For urgent issues, you may want to contact Microsoft CSS directly. Please check <http://support.microsoft.com> for regional support phone numbers.

Any input or comments in this thread are highly appreciated.
