Hello Rob,

Thank you for posting back!

Thanks a lot for SuperG's great input!

>From your reply, I understand that actually you are talking about sending 50,000 faxes per month.

You can try any fax modems listed in our HCL, please see:

Brooktrout Technology

<http://www.microsoft.com/windows/catalog/server/default.aspx?subID=22&xslt=globalsearch&qu=BrookTrout&scope=1>

U.S. Robotics Corporation:

<http://www.microsoft.com/windows/catalog/server/default.aspx?subID=22&xslt=globalsearch&qu=U.S.+Robotics+&scope=1>

Just to give you an idea, from one of our SBS customer's feedback, it took him around 30 seconds to send one fax using our service and using one modem, so he could send upto around 2500 faxes per day. With 4 modems, this will definitely go up.

If you have any further questions or concern, please feel free to let me know. I am looking forward to hearing from you!

Best regards,

Brandy Nee

This newsgroup only focuses on SBS technical issues. If you have issues regarding other Microsoft products, you'd better post in the corresponding newsgroups so that they can be resolved in an efficient and timely manner.

RE: Fax pooling performance

You can locate the newsgroup here:

<http://www.microsoft.com/communities/newsgroups/en-us/default.aspx>

When opening a new thread via the web interface, we recommend you check the "Notify me of replies" box to receive e-mail notifications when there are any updates in your thread. When responding to posts via your newsreader, please "Reply to Group" so that others may learn and benefit from your issue.

Microsoft engineers can only focus on one issue per thread. Although we provide other information for your reference, we recommend you post different incidents in different threads to keep the thread clean. In doing so, it will ensure your issues are resolved in a timely manner.

For urgent issues, you may want to contact Microsoft CSS directly. Please check <http://support.microsoft.com> for regional support phone numbers.

Any input or comments in this thread are highly appreciated.
