Hi,

(Maybe this update is a duplicate, my previous attempt doesn't seem to be accepted.)

I have tried to start the services manually:

- DCOM: no success (remains "starting")
- Security Centre: same error as during startup
- WIA: is started (automatically, a few minutes after it first failed)
- Fltmgr: is not a service, don't know how to start it manually

Then I ran msconfig, unchecked ALL non-MS services and restarted. This went much quicker but gave same errors in event viewer.

To be honest, I have one error before all the others (I thought it was irrelevant, as it relates to Daemon Tools, a DVD Simulator)

Event Type: Error

Event Source: sptd

Event Category: None

Event ID: 4

Date: 27/02/2006

Time: 21:02:24

User: N/A

Computer: PC-01

Description:

Driver detected an internal error in its data structures for .

For more information, see Help and Support Center at

<http://go.microsoft.com/fwlink/events.asp>.

Data:

0000: 00 00 00 00 01 00 52 00 .....R.

0008: 00 00 00 00 04 00 04 c0 .....À

0010: 04 00 00 00 00 00 00 00 .....

0018: 00 00 00 00 00 00 00 00 .....

0020: 00 00 00 00 00 00 00 00 .....

After startup, I get the following error on screen:

RE: DCOM Process Launcher hung

Daemon Tools  
Initialisation error

This program requires at least Windows 2000 with SPTD 1.21 or higher.  
Kernel debugger must be deactivated.

By the way, I have Windows XP SP1. But I recently installed SP2 (triggered by Windows Update). After that, during the mandatory reboot, I powered off my PC, and all trouble began (I couldn't start windows anymore, even in safe mode) . Then I Used my original XP SP1 CD to re-install SP1 (Repair didn't work).

Best regards,  
Bruno

Hi Bruno,

Thanks for your input.

To narrow down the problem, would you please help me confirm if you can start these services manually on Services console and check if you have set the Startup type as Automatic for these services.

Also please try a clean boot to see how thing goes:

1. Click Start, click Run, and then in the Open box, type "MSCONFIG" (without the quotation marks). Click OK.
2. In the System Configuration Utility (MSConfig) window, click to select the Selective Startup button.
3. Click to clear the check mark from the "Load startup items" below Selective Startup.
4. Click the Services tab, click to check the "Hide All Microsoft Services" box, and remove all the check marks from the remained Non-Microsoft Services. Please note that the Exchange services could be marked as non-Microsoft. Please do not disable those services.
5. Click OK to close the MSConfig window. Click Yes when you are asked to restart your computer in order to enable the changes.
6. After restarting, please check whether this issue will reoccur.

Thanks for your time and I look forward to hearing from you.

Best regards,

Crina Li (MSFT)

RE: DCOM Process Launcher hung

This newsgroup only focuses on SBS technical issues. If you have issues regarding other Microsoft products, you'd better post in the corresponding newsgroups so that they can be resolved in an efficient and timely manner. You can locate the newsgroup here:

<http://www.microsoft.com/communities/newsgroups/en-us/default.aspx>

When opening a new thread via the web interface, we recommend you check the "Notify me of replies" box to receive e-mail notifications when there are any updates in your thread. When responding to posts via your newsreader, please "Reply to Group" so that others may learn and benefit from your issue.

Microsoft engineers can only focus on one issue per thread. Although we provide other information for your reference, we recommend you post different incidents in different threads to keep the thread clean. In doing so, it will ensure your issues are resolved in a timely manner.

For urgent issues, you may want to contact Microsoft CSS directly. Please check <http://support.microsoft.com> for regional support phone numbers.

Any input or comments in this thread are highly appreciated.

RE: DCOM Process Launcher hung

| Hello,

| Allow me to join this discussion. I have exactly the same error message  
in  
| my event viewer. It happened after I powered down my PC while it was  
| stopping. After the next restart I saw these errors.

| Event Type: Error  
| Event Source: Service Control Manager  
| Event Category: None  
| Event ID: 7022  
| Date: 22/02/2006  
| Time: 00:14:34  
| User: N/A  
| Computer: PC-01  
| Description:  
| The DCOM Server Process Launcher service hung on starting.

| For more information, see Help and Support Center at  
| <http://go.microsoft.com/fwlink/events.asp>.

| Event Type: Error  
| Event Source: Service Control Manager  
| Event Category: None  
| Event ID: 7000  
| Date: 22/02/2006  
| Time: 00:14:34  
| User: N/A  
| Computer: PC-01  
| Description:  
| The Security Center service failed to start due to the following error:  
| The executable program that this service is configured to run in does not  
| implement the service.

| For more information, see Help and Support Center at  
| <http://go.microsoft.com/fwlink/events.asp>.

| Event Type: Error  
| Event Source: Service Control Manager  
| Event Category: None  
| Event ID: 7022  
| Date: 22/02/2006  
| Time: 00:14:36  
| User: N/A  
| Computer: PC-01  
| Description:  
| The Windows Image Acquisition (WIA) service hung on starting.

| For more information, see Help and Support Center at  
| <http://go.microsoft.com/fwlink/events.asp>.

| Event ID: 7001  
| Date: 24/02/2006  
| Time: 20:32:07  
| User: N/A  
| Computer: PC-01  
| Description:  
| The SSDP Discovery Service service depends on the HTTP service which  
failed  
| to start because of the following error:  
| The specified procedure could not be found.  
|  
| For more information, see Help and Support Center at  
| <http://go.microsoft.com/fwlink/events.asp>.

| As a result, a lot of actions don't work anymore, such as:  
| – it does not recognise when I insert a USB memory stick  
| – I cannot create a "New" question or comment on this newsgroup...

RE: DCOM Process Launcher hung

| In "Services", I also see the status "Starting" for DCOM.

|

| I would appreciate some help.

| Thanks,

| Bruno
