you appear to be accessing this group via the web interface. I'm not sure attachments can be accessed via it.

Easiest answer would be to set up Outlook Express to access the group.  
server msnews.microsoft.com

Merv,

Thanks for that but I don't see an attachment? Am I being really dim?

Looks like the article has been pulled by MS.

I'm attaching a .pdf of the KB 887305 (last reviewed 2/11/2005, may not be the latest and greatest).

I'm faced with fixing an SBS2003 box with a screwed up IIS install,  
I've tried several times over the last day or so to access kb887305 on the MS site

Re: Reinstalling IIS in SBS 2003

(which should help) but to no avail, just keep getting a KB error. Does this article still exist?

I don't have a technet subscription to get the article from cd, can someone help? Please?

Ta!

G
