Hi Romeo

The server will allow that but you will be in violation until the Licences are received.

Hi,

I bought Win SBS 2003 prem edition with 5 cal, I have ordered another 10, which are due to be available in the next 2-3 days... I have already exhausted the 5 purchases as I have connected 5 machines to the domain and licences are used, can I add a further 3 and still am waiting for the licences ? Will the server allow me to do that ?
