Yes you can delete it. It's a log for troubleshooting. If it gets big fast you want to have a look at it and see what entries are in there.

<news:1159375552.990906.226150@xx>

located in "\\Program Files\Microsoft Windows Small
Business Server\Support"

It is almost a gig in size

What about MSSBSSSR.log, can I delete or move that one? It is
approaching 250mb.
