Hi Enyalius,

Thanks for posting back.

I am sorry for the delayed response due to my holiday. Your understanding is greatly appreciated!

when adding a new user by add user wizard, the SBS\_LOGIN\_SCRIPT.bat is added by default, this is by design, so you can only manually remove the bat from the Login Script section of the profile, thanks for your understanding.

I appreciate your time. I am happy to be of assistance.

Best regards,

Jacky Luo (MSFT)
