Hello all,

I know this subject has been covered before but...I'm still not sure on how to correctly proceed:

Customer asked me to block Live Messenger for a group of 5 users during business hours. They are allowed to use it during their lunch time (12:00 – 13:00)

DO I create a deny rule adding these users, MSN Messenger protocol and also create a BIZ HOURS Schedule?

If yes, where do I place it so it's effective?

Thanks,

Dan
