Hey, I'm at a loss with this one so pls help. I recently tried to uninstall/reinstall the companyweb website as per Kb829114 and the intranet install fails no matter if I start it from the original CD or from Add/remove programs. The error log shows the following:

```
[09/04/07,21:16:34] WizardUI: [2] ISetupManager::GetGlobalCustomProperty()
failed in CPageBase::GetGlobalProperty(): GUID =
{63ECC03C-3D58-4074-903D-E80CFC5BDC25}
[09/04/07,22:41:29] : [2] Clean type install detected but file call returned
an error.
[09/04/07,22:41:29] : [2] Failed to read the Bobcat PID from file.

```

Feedback and solutions would be greatly appreciated.

Tks...

.
