I'm not a big fan of setting a production server (especially an SBS box) to automatic updates. We always test updates on a dedicated box before we apply them to customer production servers. This has paid off numerous times.

As to your issue, do you have W2K3 SP2 installed? If so, have a look at this link... <http://support.microsoft.com/kb/555912>

Hi All,

I am having trouble configuring VPN by running Connection Manager. The server was originally installed with SBS 2003 SP1. It is setup for automatic update and has all the latest updates. During configuration it gets halfway and then gives the following pop-up message:

An error occurred while creating the Connection Manager configuration package file. For details, see C:\Program Files\Microsoft Windows Small Business Server\Support\rRASlog.txt, and then rerun the Remote Access Wizard.

Here is the output from the rRASlog.txt file.

```
=====
8/23/2007 5:04 PM
C:\Program Files\Microsoft Windows Small Business
Server\Networking\RRASWiz\wizrRAS.dll, version 5.2.2893.0
Calling CRRASCommit::CommitEx
Calling CRRASCommit::ValidatePropertyBag
pdispPPPPBag->QueryInterface returned OK
PropertyBag 2674a0
Reading property value for enabling Remote Access returned OK
bRemoteAccess = 1
```

Re: VPN Configuration error

Reading property value for VPN returned OK
bVPN = 1
Reading property value for RAS returned OK
bRAS = 0
Calling CRRASCommit::ValidateVPNProperties
Reading VPN Server Name returned OK
VPN Server Name is vpn.quranicacademy.org
Calling CRRASCommit::ValidateDHCPProperties
DHCP server is installed on the box
CRRASCommit::ValidateDHCPProperties returned OK
CRRASCommit::ValidateVPNProperties returned OK
CRRASCommit::ValidatePropertyBag returned OK
pdispPPPPBag->QueryInterface returned OK
Pointer to the property bag 2674a0
Calling CRRASCommit::CommitRRAS
Arguments:
PropertyBag 2674a0
bRAS 0
bVPN 1
Getting the GUID of the private NIC returned OK
Private NIC Guid is {E0611804-FE90-4BC3-B067-191DF2FDCE84}
Checking whether RRAS is already running returned OK
RRAS is not running
Installing RRAS returned OK
Dhcp server is installed and running on this box
Enabling DHCP client addressing returned OK
Configuring ports returned OK
Identifying the private NIC for RAS returned OK
Setting the default authentication methods returned OK
Disabling NETBIOS for RAS returned OK
Changing RRAS startup type to automatic returned OK
Configuring Remote Access Policy returned OK
*** Stopping RRAS again returned ERROR 80070426
Starting RRAS service returned OK
Disabling L2TP Ports returned OK
Saving Dhcp Server IP returned OK
Saving RRAS method returned OK
Method is 2
Where 1 = RAS, 2 = VPN 3 = both
CRRASCommit::CommitRRAS returned OK
Committing RRAS returned OK
Calling CRRASCommit::CommitCMAK
Arguments:
PropertyBag 2674a0
bRAS 0
bVPN 1
Template file name is sbsvpn
Reading VPN Server name returned OK
Reading VPN Server name is vpn.quranicacademy.org
Created temp directory CMPB31.tmp
Copying required template files to the temp directory returned OK

Re: VPN Configuration error

Updating CMP template returned OK
