When I run this is the error.

An error occurred while creating the connection manager configuration package file. details see C:\program files\ms windows small business server\support\rraslog.txt and then rerun.

The log is below. the error is cannot delete CMP150.tmp. When I go in and try to manually delete I receive error cannot delete CMP150.tmp. it is being used by another person or program. close any programs and try again.
