I have recently restored some mailboxes on the SBS 2003 & seem to be getting below error on the SBS 2003 R2 server.

An ambiguous Mailbox Guid 9d7bc80a-70a9-4dc2-a179-79c24757416b was found on 0x2 mailboxes in the DS. The store cannot map this Mailbox Guid to a unique user

How can I tell which user it is & how do I resolve it.

Thanks
