My bad...I forgot about the evaluation period.

Here are the minimum system requirements:

Note To ensure that your applications and hardware are ready for Microsoft Windows ServerT 2003, visit the Windows Server 2003 Web site.

System Requirements for Standard Edition

Requirement Minimum Recommended

CPU speed

300 MHz

550 MHz or faster

RAM

256 MB

384 MB or higher (4 GB max)

Hard disk

4 GB of available hard disk space*

4 GB of available hard disk space*

Drive

CD-ROM

CD-ROM or DVD-ROM

Display

VGA or hardware that supports console redirection

Super VGA (800 × 600) or higher-resolution monitor

Other devices

. Hardware that supports console redirection

. Ethernet network interface card from the Windows Server Catalog

. Keyboard and Microsoft Mouse or compatible pointing device

. Two Ethernet network interface cards from the Windows Server Catalog

Additional items and services required for Internet access

. Some server functionality requires Internet access and payment of a separate fee to a service provider; local and/or long-distance telephone toll charges may apply.

. Broadband or high-speed modem Internet connection

. Some server functionality requires Internet access and payment of a separate fee to a service provider; local and/or long-distance telephone toll charges may apply.

. Broadband or high-speed modem Internet connection

Additional items required for networking

. Dedicated Class 1 fax modem to use fax service

. Dedicated Class 1 fax modem to use fax service

. Pocket PC Phone Edition 2003 or Smartphone 2003 for Outlook Mobile Access

. Windows XP Professional or Windows 2000 Professional for client operating systems

*Actual requirements will vary based on your system configuration and the applications and features you choose to install.

System Requirements for Premium Edition

Requirement Minimum Recommended

CPU speed

300 MHz

550 MHz or faster

RAM

256 MB

512 MB or higher (4 GB max)

Hard disk

5 GB of available hard disk space* (only 2 GB required if upgrading from Small Business Server 2000)

5 GB of available hard disk space* (only 2 GB required if upgrading from Small Business Server 2000)

Drive

CD-ROM

CD-ROM or DVD-ROM

Display

VGA or hardware that supports console redirection
Super VGA (800 × 600) or higher-resolution monitor

Other devices

- . Hardware that supports console redirection
 - . Ethernet network interface card from the Windows Server Catalog
- . Keyboard and Microsoft Mouse or compatible pointing device
 - . Two Ethernet network interface cards from the Windows Server Catalog

Additional items and services required for Internet access

. Some server functionality may require Internet access, a Microsoft Passport account, and payment of a separate fee to a service provider; local and/or long-distance telephone toll charges may apply.

- . Broadband or high-speed modem Internet connection

. Some server functionality may require Internet access, a Microsoft Passport account, and payment of a separate fee to a service provider; local and/or long-distance telephone toll charges may apply.

- . Broadband or high-speed modem Internet connection

Additional items required for networking

- . Dedicated Class 1 fax modem to use fax service
- . Dedicated Class 1 fax modem to use fax service
 - . Pocket PC Phone Edition 2003 or Smartphone 2003 for Outlook Mobile Access
- . Windows XP Professional or Windows 2000 Professional for client operating systems

*Actual requirements will vary based on your system configuration and the applications and features you choose to install. Additional available hard-disk space may be required if you are installing over a network.
