Frank,

Drivers not included in the base OS are the responsibility of the hardware

Re: Windows XP x64 Setup Problems

vendors to product.

You should contact them for their statement on availability of drivers for the x64 Microsoft operating systems.

Are you SATA driver x64 drivers and are they the final production ones? Most drivers currently available are Beta drivers produced for the Release Candidate builds of the x64 OS. Check back with the manufacturer for the latest final release drivers.
