You can filter your GPOs with user groups.
You should also use "loopback processing" of the GPO, with the Replace option.

Details here:

816100 – How To Prevent Domain Group Policies from Applying to Administrator Accounts and Selected Users in Windows Server 2003
<http://support.microsoft.com/?kbid=816100>

231287 – Loopback Processing of Group Policy
<http://support.microsoft.com/?kbid=231287>
