Windows Update Site Lists Updates That You Already Installed

http://www.dougknox.com/xp/scripts_desc/xp_hotfix_prompt.htm

Prevent Windows Update from prompting you to install a Hotfix you know is already installed:

> *I have my Windows XP set up for automatic updates. I have been getting update notifications for over two weeks and when I go into details before installing, it is for the same update. I've even shut down all my other programs before installing and then restarted afterward and I still get a notification for the same update the next day. On the Microsoft website, when I check history, I have installed that update almost daily since around April 20. Why do I keep getting update notifications for the same thing?*
