Hi

You will need to (and you really should!) unapprove all superseded patches yourself (e.g. for the IE patches you now have trouble with). See the recent thread "superseded patches..." in the microsoft.public.softwareupdatesvcs newsgroup for more on this.

Fyi, there is a separate newsgroup for SUS:

microsoft.public.softwareupdatesvcs

<news://msnews.microsoft.com/microsoft.public.softwareupdatesvcs>

URL to the group softwareupdatesvcs for those who uses the Web interface to access the newsgroups:

<http://www.microsoft.com/windowsserver2003/community/newsgroups/dgbrowser/en-us/default.mspx?dg=microsoft>

A Web site about SUS with a FAQ and a SUS forum:

<http://www.susserver.com/>

More SUS Web sites:

<http://www.cites.uiuc.edu/sus/faq.html>

<http://www.faqshop.com/sus/default.htm>
