Hi Steve,

Try "manually" d/loading and installing the Update for Background Intelligent Transfer Service (BITS) 2.0 and WinHTTP 5.1, which is available for d/load from here:

<http://www.microsoft.com/downloads/details.aspx?familyid=b93356b1-ba43-480f-983d-eb19368f9047&displaylang>

If successful at installing this update, try the Windows Update site and see if you are then successful in receiving the other updates.

Regards,
