I have the same error message, and there is some malware on my computer that AdAware did not find: Aurora, Ezula, VBS.Powcox@mm, MyWebSearch. So I feel wide open too. What can I do? Need to find fix for this error ASAP.

i hope someone can help me. i have asked 2 microsoft techs to help but unfortunetly nothing is solved. i am running windows xp home edition with sp2. i am using aol 9.0 with security edition and mcafee firewall and virusscan 2005.i became an aol member in august,since then i've onky had one micrsoft update. When it scans i get that error

Re: error Ox80072EE4

message Ox80072EE4. Please
someone help me in getting this fixed i feel very
wide open without any
critical updates from microsoft. i am beginning to
think that my aol software
is someone blocking this. if it helps i also have
the aol spyware installed. i
would appreciate any suggestions any of you may
have. thank you
