See Bert Kinney's System Restore site.

Select the "System Restore Fails" link on the upper left.

A new release of security update 908531 will be available from MS on April 25.
Please see "Problems in Windows Explorer/ Windows shell due to 908531" update

Thanks MauriceN for trying to help: it did not work, even shutting down
Everything and removing KB908531 (which Microsoft now wants to re-install).
Microsoft should be "shot" for causing trouble to so many people.
