-

Do you have an antivirus program that uses real-time scanning?
You receive a "0x80070020 The process cannot access the file because it is being used by another process" error message when you try to download an update from Windows Update or from Microsoft Update
<http://support.microsoft.com/default.aspx?scid=kb;EN-US:883825>

```
<snip>Could not move C:\WINDOWS\system32\wuapi.dll to  
C:\WINDOWS\system32\wuapi.dll.wusetup.262046.bak due to 0x80070020"  
<snip>
```

This could also be causing the access denied error 0x80070005

```
