Thanx Rex for replying, but I neglected to inform that my op is Vista, I "assumed" this was a Vista prob, not a XP prob also. So when I tried at the prompt, I received access denied.

"Rex999" wrote:

Thanx for the help it worked for me...

"Gars": I found an answer from MowGreen and made a copy in this subject hope you find it helpful.

Show hidden files, folders, and system files:

<http://www.bleepingcomputer.com/tutorials/tutorial62.html#winxp>

Using Windows Explorer, navigate to  
WINDOWS\SoftwareDistribution  
Delete the contents of WuRedir or drag the entire folder to the Recycle Bin IF you get a message that a file is in use by another program, then stop the Automatic Update service by going to Start

Run > type  
in

net stop wuauerv  
Click OK or press Enter

Re: Fehler 0x80245003

Restart the service after  
doing the above from Start >  
Run > type  
in

net start wuauerv  
Click OK or press Enter

Then download and SAVE  
the latest version of the  
Windows Update  
Agent,

if it hasn't already come  
down via Automatic  
Updates :

x86 [32bit]

<http://go.microsoft.com/fwlink/?LinkID=91237>

Download and save

KB927891 if it hasn't

already come down via AU :

<http://www.microsoft.com/downloads/details.aspx?FamilyId=7A81B0CD-A0>

Install WUA first, then run

WindowsXP-KB927891-v3-x86-ENU.exe

Restart the system and  
revisit Windows Update.

my  
english  
is  
verry  
bad  
but  
i  
try  
to  
help  
you

search  
the  
map  
softwaredistribution  
in  
in  
windows  
than  
open  
it  
search  
map  
WuRedir  
and  
try  
to  
change  
it  
in  
WuRedir.old

Re: Fehler 0x80245003

than  
try  
update  
again

Hällöchen,  
habe  
anscheinend  
nach  
einer  
Systemwiederherstellung  
mir  
meine  
Autom.  
Updates  
verbockt.  
Fehler  
Nummer  
0x80245003  
habe  
nach  
anleitung  
von  
Microsoft

Re: Fehler 0x80245003

versucht  
abhilfe  
zu  
schaffen,  
klappt  
aber  
nicht.  
net  
stop  
wuauserv  
updates  
angehalten  
oder  
so  
ähnlich  
rmdir/s%windir%\softwaredistribution  
dann  
kommt  
allerdings  
"Parameterformat  
nicht  
korrekt  
sC:\WINDOWS\softwaredistribution  
net  
start  
wuauserv  
update  
start  
wieder  
okay  
aber  
es  
geht  
trotzdem  
nicht.  
Hab  
nicht  
viel  
Ahnung  
von  
PC,  
kann  
mir  
daher  
jemand  
helfen!  
Sandra
