-

I attempted to install the BITS update and as I was told already it would not allow the install.

Here is the report:

KB842773

SETUP HAS DETECTED THAT THE SERVICE PACK VERSION OF THIS SYSTEM IS NEWER THEN THE UPDATE YOU ARE APPLYING.
THERE IS NO NEED TO UPDATE.

So I'm back to square one ! I have done absolutely nothing to this pc to have created this problem. I havent installed any new apps or uninstalled any either since the last time I was able to run windows updates successfully.

And yes I have checked my history update and the only one of these latest KB's offered is the same malicious tool removal that Microsoft wants the user to run each month.

Regards

"Silverfox1" wrote:

I have only the built in SP2 Firewall on this single client home desktop. And yes I have tried changing the BITS service to automatic and it still will not start and continues to give the Error 126 I already mentioned. Unless I have been told wrong the user cannot re-install BITS in the pc if the user is already running or has upgraded to SP2 as I have. The upgraded version of BITS is already incorporated in SP2. Engel I have already previously thru research viewed the link you attached but havent tried the remedys as of yet.

Hi Silverfox,

Have a look here

<http://support.microsoft.com/?kbid=910337>

RE: Latest 9 updates Failed 0x80246008

Good luck

--

"Silverfox1" wrote:

I cannot start BITS in services. It is presently in manual mode. I get the ERROR 126 Specified Module could not be found.

Should I reinstall BITS ?

<http://www.microsoft.com/downloads/details.aspx?familyid=b93356b1-ba43-480f-983d-eb>

I am running XP Home upgraded to SP2 over two years ago and this is the first time I have encountered this error 126 problem.

"Silverfox1" wrote:

I have windows updates turned on Auto but never was able to run windows update manually and install these latest below:

KB938828, KB890830, KB921503,
KB938829, KB937143, KB936782,
KB936181,
KB936021, KB938127

The d\l looks like it never starts so after 10 minutes even on bradband I cancelled out of it. I have tried disabling AVG, & WinPatrol, and SP2 pop up blocker but nothing appears to work.

Below is a long list from the windows directory:
