Did you purchase the MUI pack. It is not a freebie

Hello, I am running windows vista ultimate, when I check for new updates I am not getting the list of available MUI packs. I used to see them but now they are just gone. Anyone know what is wrong? They are not hidden as I have already checked there. This is not computer related I believe, as I have checked on my brothers computer as well which is also running vista ultimate and they are not showing either.
