I'm just saying most of us don't know what you're talking about!! But I suppose that's the fun of it!! I go to your post:
www.JesusSaves/MosesInvests.mvp

no such place!!! mwuwahaha

Beautiful Beautiful Beautiful!!! It is too damn daunting ~ it's a pain in the assets and they should get it together and quit making us perform like monkeys out here!! lol Oh, and thank you very much and very kindly for your persistence, advice and answering OUR questions ~ I'm sure if it's happening to me ~ it's happening to thousands more too... God Bless You! and Have a happy holiday season too :) Here's my holiday gift to you and other readers: However important your other affairs or activities may be, never forget that what is essential for your future is your work with thought. Thanks to this, every day you will move closer and closer to the ideal you aspire to. Every day, through your prayers and meditations, you will add another element to the edifice: a brick, a slab of concrete, a little cement, a plank, a nail! What happiness to feel you are doing something, that you are advancing! Besides, you cannot be sure to feel as happy when you see your building completed. Yes, you may feel as if something is missing when it is

Re: Installing Security Update for Microsoft .NET Framework, Version

finished! Men and women find happiness when they achieve something, but much

more so in the work, in activity, in hope, in the thought that there is always something more to discover and accomplish. Omraam Mikhael Aïvanhov

~

Get your thought for the day emailed to you too!! :)

If the Resolution steps in KB923100 are too daunting for you (and it's certainly not everyone's cup of tea)...

Start a free Windows Update support incident request:

<https://support.microsoft.com/oas/default.aspx?gpid=6527>

Support for Windows Update:

<http://support.microsoft.com/gp/wusupport>

Customers in the U.S. and Canada can receive technical support from Microsoft Product Support Services at 1-866-PCSAFETY.

There is no-charge

for support calls that are associated with security updates.

When you

call,

clearly state that your problem is related to a Security Update and cite

the update's KB number (e.g., KB931678).

In other countries, see

<http://support.microsoft.com/default.aspx?pr=securityhome> >

"No-Charge

Support...for virus and other security-related" issues in

right-hand menu

for localized contact information.

For more information about how to contact Microsoft for support issues,

visit the International Support Web site:

<https://support.microsoft.com/common/international.aspx>

Noooooooooooooo I don't want to run a vulnerable version!!! So what do you advise I do ~ d/l that cleanup tool and begin again.. Be kind dear I'm an old woman who forgets and doesn't know how important your advice might be.. I really thought that was a good idea what I did!! I'm not trying to minimize in the least what you're telling me to do.. I want to do the right thing and for everyone else reading these posts. Alot of this stuff is very confusing to the average non-geek you know!!! So ahem if I may ask again... Shall I just run the cleanup tool and install again??? Because I really thought that because I didn't get the error code ~ the link you posted did NOT apply to my situaion... Please advise, be tolerent, be patient, be kind and wise!!!

"PA Bear" wrote:

So you'd rather run a vulnerable version of .NET Framework than try to resolve your installation problem? Good luck with that.

Eyesofmoon wrote:

Thanks for your input but I didn't receive any error codes.. What I

Re: Installing Security Update for Microsof.NET Framework, Version

finally
did to
resolve this
problem is
when the
little yellow
icon kept
popping
up
to prompt
me to
download
the same
update
again, I
selected
custom or
advanced
option
below the
automatic
one and
then clicked
Don't Show
Me
This
Message
Again :)))
That
Worked!!!

This
update
just
repeatedly
initializes
~
installs
~
reports
Installation
done!
My
history
says
it's
installed
like
10
times!!!
YET
~
the
little
Yellow
Icon
!
comes
back
and
says
automatic
updates
are
ready
to
be
installed...
What
do
you

Re: Installing Security Update for Microsof.NET Framework, Version

advise?

How

can

I

step

out

of

this

circle?

:))

and

thank

you

in

advance...
