I don't know what you have actually tried to fix the problem but have a look at the following and see if it can give you any help.

Joan

1. Updates are not installed successfully from Windows Update, from Microsoft Update, or by using Automatic Updates after you repair a Windows XP installation
<http://support.microsoft.com/kb/943144>

or if that's not the case –

2. How to troubleshoot Windows Update or Microsoft Update when you are repeatedly offered an update

Im using windows xp sp2. I've seen so many threads down below, but couldn't find one helpful even though i have tried one of 'em with regards to windows genuine validation tools. The same error and message keep on popping up zillions of times, and it sounds as hell as below.

The following updates were not installed:

Security Update for Windows XP (KB873339)
Critical Update for Windows XP (KB886185)
