WaIly,

Maybe top posting wipes out prior posts in news readers like Forte, which YOU are using.

In good news readers such as Outlook Express, all previous posts remain whether they are top- or bottom-posted. :>

Alan

I'd recommend that you only download/install driver updates for that machine that are offered by Dell Support Downloads pages.

Your top posting wipes out the prior post..... geez

Anyway, he's mixing two updates.

I doubt the Dell update is coming from Microsoft and his other update is so the screen saver works using a wireless mouse.
