Don't apologize for your English, Max. Your English is much better than my Italian :).

The only way to make this work on Windows CE is to write your own ActiveX object to implement FSO (or better yet only the parts that you need). You may try looking around on groups/google to see if anyone has implemented this already.

There was an extended discussion about this available at

<http://groups.google.com/groups?q=spaith+filesystem+object&hl=en&lr=&selm=OoiJHzILEHA.1340%40TK2MSFT>

Ciao!
