In my application, i create a main window and when i would create a listbox , i create a child window and it's this caption that i would change font.

In fact i would change my window Caption font (WS_CAPTION option in createwindowEx).

What you told me is about changing all window font except the caption. So i just would change the caption font , size of a window ...

Sorry if my explanation are quite bad.

Thanks for your help.

Thanks a lot.

It's working now.
I've made a mistake in sendmessage function.

Thanks

Your use of the word "caption" is confusing me. You can change the font used by a CONTROL, by sending it WM_SETFONT:

```
// Try to set the font for the listbox to something else.  
LOGFONT lf;  
HDC hDC = GetDC( hDlg );  
lf.lfHeight = -(int)MulDiv(18, GetDeviceCaps(hDC, LOGPIXELSY), 72);  
ReleaseDC( hDlg, hDC );  
lf.lfWidth = 0;
```

Re: Change Window CE Caption Size and Font

```
lf.lfEscapement = 0;
lf.lfOrientation = 0;
lf.lfWeight = FW_NORMAL;
lf.lfItalic = FALSE;
lf.lfUnderline = FALSE;
lf.lfStrikeOut = FALSE;
lf.lfCharSet = ANSI_CHARSET;
lf.lfOutPrecision = OUT_DEFAULT_PRECIS;
lf.lfClipPrecision = CLIP_DEFAULT_PRECIS;
lf.lfQuality = DEFAULT_QUALITY;
lf.lfPitchAndFamily = DEFAULT_PITCH | FF_DONTCARE;
_tcscpy( lf.lfFaceName, _T( "Tahoma" ) );
HFONT hfont = CreateFontIndirect( &lf );
SendMessage( GetDlgItem( hDlg, IDC_SHARELIST ), WM_SETFONT,
(WPARAM)hfont, MAKELPARAM( TRUE, 0 ) );
```

There's no "caption" involved in *any* listbox, so I don't know what you mean by that, but the text inside the listbox is written using the font set as above.

No excuse me.
I'm making an application and i just want to change the
Caption style.
It's only for may application. I use the caption property of my
listbox
window and i would change the size of title.

Thanks

You're talking about a top-level window?
You could change the system
font, I guess, but, no, there's not a reasonable
way to change the
method of display of just *one* top-level
window to center the title on
the title bar, change the font, etc.

Hi,

I'm working with EVC and
Win CE 5.

I create a list box in a
window and i would change
the caption style.

Is it possible to change the
caption font size of a
window, to change
the font , or to center the
caption in the window ?

Thanks a lot.
