Suzanne,

I noticed this article was written by you. When I clicked on the link to the KB article, it came up saying it could find the article. I also tried searching on the original Q number but came up with nothing. I searched on the title you listed and found it at this link.

<http://support.microsoft.com/default.aspx?scid=kb:en-us:212251>

I find that Microsoft has a habit of redoing their article locations and have to redo bookmarks once I find where the article has been moved to.

Thanks for your response.
