I found that one can use "Different 1st page in the Page Layout..."

I don't know if it the right way but it seems to works so far....

Word 2002 SP3
Win XP Pro SP2

Hi,

I am trying to create a template for a stationary that should have a header (logo) on all pages; while a footer on ONLY the first page of the document.

I tried creating a new section inside the 1st page, etc.; but evidently did not do it right.....

Was is the best way to accomplish the above objective?

Thanks.
