Assuming that what you are talking about is what Word calls an "online form," follow the links at <http://addbalance.com/word/wordwebresources.htm#Forms> or <http://word.mvps.org/FAQs/Customization/FillinTheBlanks.htm> especially Dian Chapman's series of articles. You may also want to look at <http://www.word.mvps.org/FAQs/TblsFldsFms/LinesInForms.htm>. Chapman's series are the best tutorials I know of and take you from basic forms to userforms.

Hope this helps,
