MS Word is not checking spelling. Excel and Powerpoint both have functional spell checkers. The language is set to 'English (Australian)' and the checkbox marked "do not check spelling or grammar" is NOT checked. HOWEVER, when I Ctrl+A to select all the text, the "Do not check" checkbox is marked – not with a tick, but a blue box... Now, if I uncheck this, the spell check still doesn't work. If I Ctrl+A again, the blue box is there again. Summary: "do not check spelling or grammar" option will not turn off. I have heard this could be something to do with laptop mousepads, and/or Outlook Express... That seems a little crazy, but i'll try anything. Hints or suggestions greatly appreciated,
~Katkat
